FAIRFAX HOSPITAL RECEIVES TTY

Persons having a TTY can reach the emergency room by calling 698-3199.

DIMENSION 2000 IS COMING!!!

Gallaudet will change over to its new electronic telephone system on Friday, evening, August 10. All College telephone numbers will change from the present 447-0xxx to new 651-5xxx configurations.

At approximately 5:30 p.m. on Friday, August 10, all campus telephone numbers will be disconnected simultaneously. The new telephone numbers will be connected one by one. The entire process should take no more than one hour.

When the new Dimension 2000 electronic system is in full operation, all campus telephones will be touch-tone models. This and the use of electronic switching will help prevent the delays in service frequently encountered with the old mechanical equipment.

The Chesapeake and Potomac Telephone Company will provide a voice and TTY intercept recording on the College's main numbers, 447-0314 and 447-0315. The General Services Administration operator will provide voice intercept operator assistance for all other campus telephone numbers.

C & P is now training all College employees in the use of this new system. Other sessions have been scheduled during the fall after the beginning of the school year. For information on these training sessions contact Robert Quarles ext. 725.
